Sub: Conversion of IEEE Uttar Pradesh Sub-section into IEEE
Uttar Pradesh Section.

Dear Sir,

All of us, whether the office bearers of a sub-section or a section wish to expand IEEE activities and number of membership. Particularly in India considerable scope for such a expansion exists. The consequences of such an effort will naturally be opening of more sub-sections and conversion of subsections into sections.

The membership of Uttar Pradesh Sub-section has now grown to more than three times the minimum required for conversion into a section (we have now membership of more than 150) and thus, we are in a position to execute and sustain activities of the level of a section. In the current year we will be having one National Workshop. Two national workshops will be held in the early part of the next year. In addition to that we already have two panel discussions. Total number of seminars will be around 16 and two tutorial courses.

We now wish to get our sub-section converted into section with the following details:

1. Name of the proposed section : IEEE Uttar Pradesh Section
2. I am enclosing signatures of more than 50 members on the petition. Please note in Varanasi by mistake student members have also signed, but we have 60 signatures excluding student members.
3. Territory limits : same as before i.e. Uttar Pradesh State of India (i.e. all towns having postal codes starting with numbers 20 to 29).

Contd...2

4. The consent of the involved section i.e. IEEE Delhi Section has been obtained. A letter of the Chairman Delhi Section in this regard is enclosed herewith.
5. On behalf of UP Sub-section, I, in my capacity as a Chairman, assure you that in the event of conversion into a section we will abide by the IEEE Constitution, Bylaws, and published interpretation of policy, and shall adopt Bylaws conforming to Institute Bylaws 402.
6. The proposal of conversion into section had the unanimous support of members in our General Body Meeting.

An early decision on this regard will be of great help.

Yours sincerely,

(G.K. Dubey)
