Mr. John C. Parker
Rochester Railway, Light and Power Company
Rochester, N. Y.

Dear Sir:-

I have the honor of notifying you that the Board of Directors of this Institute, at its meeting held on October 9, 1914, authorized the organization of a Section in Rochester, New York, to be known as the ROCHESTER SECTION OF THE AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS. This action was taken in response to the petition forwarded by you to this office, and upon the approval of the Sections Committee.

A call should now be issued to the petitioners and any others who may be interested for a meeting for the election of officers. These are usually an Executive Committee, a Chairman, and a Secretary-Treasurer, but other officers may be elected if it is deemed desirable. A committee should be appointed at this meeting to draft a simple form of by-laws providing for meetings, the election of officers, and the government of the Section.

Each Section is entitled to a certain amount of financial support from the Institute, the amount depending upon the number of members within its territory. For the purpose of determining the number of members the territory of the Sections is limited to points within 60 miles of the meeting place. (See Section 51 of the Institute By-laws).

The appropriation of Institute funds for the meeting expenses of the Sections is made up as follows:

- a. One hundred dollars for each Section, independently of the number of members in that Section.
- b. One dollar and a quarter for each Institute member who shall reside within the territory of each Section at the beginning of the administrative year, namely, August 1.

A form is provided for rendering the monthly accounts of the Local Secretary. The expense of social features must be paid for from local funds.

You will note by referring to Section 70 of the Constitution that each Section is entitled to representation at the Institute's Annual Convention by an official delegate who shall be the chairman of the Section, or, in his absence or inability to attend, by an alternate delegate previously selected by the Section. The transportation expenses of this delegate are borne by the Institute. The Annual Convention is usually held during the last week in June, and the location of our convention for 1915 has not yet been decided upon.

The Local Secretary is expected to make a report of all Section meetings to this office, and from this report a brief notice is prepared for publication in the Institute Proceedings, thus insuring a permanent record of all meetings, and at the same time giving proper publicity to the Section. A report form is provided for this purpose.

Further particulars regarding the routine work and other details of management are given in our annual circular letter to Section officers, a copy of which is enclosed.

Kindly send us a report of the preliminary meeting, with the names of the officers elected, as soon as convenient.

We enclose herewith a copy of the Constitution and By-laws. A supply of expense vouchers, application forms, report forms, and return envelopes are being forwarded to you separately.

With best wishes for the success of the Rochester Section, and trusting to hear from you if we can be of any further service, we are

Very truly yours

Secretary

Mr. W. M. McConahey
Engineering Department
Westinghouse Electric & Mfg. Company
Sharon, Pennsylvania

Dear Mr. McConahey:-

I have the honor of notifying you that at its meeting held December 11, 1925, the Board of Directors authorized the organization of a Section at Sharon, Pennsylvania, to be known as the "Sharon Section of the American Institute of Electrical Engineers".

The procedure to be followed is to issue a call for a preliminary meeting for the election of officers; only the petitioners are entitled to vote at this meeting. The officers to be elected are a chairman, a secretary-treasurer, and an executive committee, and such others as the Section may deem desirable. The enclosed copy of suggested by-laws, which have been prepared for the guidance of Sections, may be of assistance to you in getting organized and in framing a set of by-laws for the government of the Section. Pamphlet copies of the constitution and by-laws of the Institute are also enclosed.

In addition we are sending you herewith, for your information and guidance, a copy of a circular letter issued last September to the chairmen and the secretaries of all Institute Sections, containing information relating to the routine work required by the Institute. A supply of the forms referred to in this letter is being mailed to you under separate cover.

Will you kindly forward the names of the officers of the Sharon Section immediately upon their election, so that our records may be complete.

With best wishes for the success of the Sharon Section,
I am

Very truly yours

Mr. C. J. Michaels

Dear Mr. Michaels:

IEEE Headquarters has sent me a copy of your letter of 5 Jun 74 and the offensive article that appeared in the June 74 issue of "The Rochester Engineer." I personally feel that the article in question is in poor taste for publication in such a newsletter.

I plan to take appropriate action after consulting with the Rochester Section Chairman. Attached is a copy of my letter to Mr. Portz, Chairman, Rochester Section. I will advise you of the action taken as soon as possible.

Thank you for bringing this matter to our attention.

With every good wish.

Mr. H. Glenn Portz

Dear Mr. Portz:

I call your attention to the attached letter of June 5, 1974 from Mr. C.J. Michaels, a Senior Member of the IEEE Rochester Section, who voices objections to an article which appeared in the June issue of "The Rochester Engineer."

I understand that the Rochester Section of the IEEE is affiliated with the Rochester Engineering Society and uses the publication of that society, "The Rochester Engineer," to announce its meetings.

I would judge that if the over 1,000 IEEE members in the Rochester Section were polled, most of them, regardless of their political views, would agree that the article referred to was inappropriate for publication in that journal and did not contribute to the purpose of the Rochester Engineering Society which I understand is the advancement of engineering knowledge and the cultivation of high professional standards among its members.

I would appreciate the views of the officers of the Rochester Section and any appropriate action that you plan to take in connection with this matter.

Sincerely,

1 Atch

Dear Mr. Earl:

Your letter gives me an excuse to air a complaint which I have had for a great many years. LeRoy is 25 miles from Rochester, 50 miles from Buffalo. The difference in distance represents the difference between a very high order of inactivity as far as our present Buffalo association is concerned, and a much greater degree of activity if we were affiliated with Rochester.

There is, indeed, so little contact between our people and the Buffalo section as to make any pretense of supporting the Buffalo section a little ridiculous.

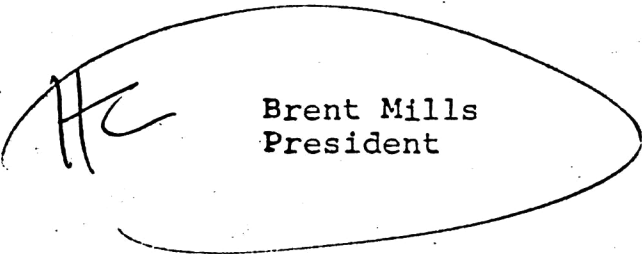

I suppose originally the territory was set up on the basis of Judicial Districts, which has forced LeRoy to be a part of the Buffalo area, when we are legitimately a part of greater Rochester.

I wonder how this might be changed.

Dear Mr. Kaushagen:

In response to your letter of September 22, we are pleased to note your interest in establishing an Engineering Management Group Chapter in the Buffalo Section which would encompass many of the nearby towns. In checking our records, we note that Niagara Falls is included in the territory of the Niagara International Section and you may wish to consider a joint Chapter with this Section.

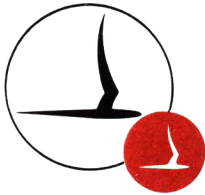

Enclosed is information on the requirements to establish Group Chapters. We are scheduling the preparation of a listing of all EM Group members in the Buffalo and Niagara International Sections for shipment to you on October 10. If we can assist you further in your efforts to establish this new Chapter in your Section, please let us know.

Dear Miss Sirjane:

Part of my duties as a member of the Board of Directors of IEEE, Buffalo Chapter, is to pursue a development program in the field of engineering management. To that end I am writing you to get a list of all members of the Engineering Management Group in the Western New York area. That would include Buffalo and its many suburbs, Niagara Falls, Batavia, Olean, and other smaller communities in that general region.

You will remember that previous correspondence was had on this subject and is attached for your reference.

The Executive Committee is of the opinion that these individuals should be transferred to our section per their request and subsequent shifting of Genesee County as an area can be accomplished at a later date after polling any additional IEEE members located there.

The individuals requesting transfer to the Rochester Section are:

C. D. Fiero
J. W. Maney
J. F. Innes
J. H. Moran

T. A. Pinkham

The Executive Committee of the Rochester Section met on May 6, 1969. At that time we reviewed the letter from Mr. Brent Mills to the Buffalo Section with a copy to IEEE in New York City requesting the transfer of members in the LeRoy area to the Rochester Section.

It is our understanding that IEEE members can request a transfer to the Rochester Section mailing by contacting IEEE in New York City on an individual basis.

I will gladly assist you in this interim solution if you will send me a listing of members in your area desiring such a change. In addition, at our May 6, 1969 Executive Committee Meeting, we agreed to contact IEEE and formally support your request for this most logical geographic rearrangement.

It is indeed a pleasure to contact you again and I'm looking forward to seeing you in the near future.

Dear Mr. Saddock:

With reference to your letter of May 7, in connection with the proposed change in territory of the Buffalo and Rochester Sections, the formal request is made as follows:

1. The Rochester Section Executive Committee will formally petition to the Buffalo Section Executive Committee for the release of the County of Genessee in the State of New York to the Rochester Section so that the members in this area will be able to derive more benefits from their memberships and participate more actively in IEEE.
2. The Buffalo Section Executive Committee will formally advise the Rochester Section Executive Committee their approval to release Genessee County in the State of New York to the Rochester Section.
3. The Rochester Section will then make a formal petition requesting approval for the addition of Genessee County in the State of New York to the Section Territory. The letter will indicate the approval of the Buffalo Section Executive Committee to release the territory to the Rochester Section.

Upon receipt of the petition in IEEE, we will seek the approval of the Regional Activities Committee and, with their concurrence, submit the petition to the IEEE Executive Committee for formal approval.
