Peggy,

This will serve the Central Texas Section area and I approve spliting the existing EM Chapter into two chapter one for SA and Austin Texas.

Dear Director Scolli and President Durrani -

We have been contacted by the Central Texas Section Chair requesting that the existing Engineering Management Society chapter be split. The current EM Society membership in the Section is over 100. This membership group will be better served with Chapters in two cities rather than one.

The proposed chapter names are:

Central Texas (Austin) Section EM Chapter, chaired by Leslie P Martinich

## IEEE REGIONAL ACTIVITIES Section/Chapter Support 445 Hoes Lane Piscataway, NJ 08855

The Executive Committee of the Central Texas Section has determined that its members would be better served by having separate chapters of the Engineering Management Society in Austin and San Antonio, instead of the one existing chapter. It is the hope of the Executive Committee that this reorganization can be in place before the end of 2007.

The chapters should be named as Central Texas (Austin) Section EM Chapter and Central Texas (San Antonio) Section EM Chapter.

The Austin chapter will be chaired by Leslie Martinich: Leslie P Martinich

The San Antonio chapter will be chaired by Nils Smith:

Dear Mr. Fanning:

I and several other professionals are interested in starting a local chapter of Laser and Electro-Optics Society of IEEE. The chapter will include the metropoliton areas of Austin and San Antonio in Texas which has a very rapidly expanding E/O industry.

I would appreciate receiving any information from you to start this very worthwhile endevour. I know that we have at least two local chapters of IEEE societies. If you have any questions, please call me at (512) 926-2800 during business hours. Thank you for your assistance. x 5347

The consensus is that we can go ahead and form this Group without any further formality. Please let Peggy Kovacs know who the Chair is and we'll add it to our database.

I have no problem grandfathering them in. They have been around at least for 6 years that I know of and probably 8 as they suggest.

Joe,

At the time when "Affinity Groups" became an official entity, most of the Consultant Network Groups that were already in operation submitted a petition to become official. A couple were grandfathered in. I'm copying Scott Grayson, of IEEE-USA, who can let us know if the latter option is acceptable in this case.

I'm glad we caught this... your group should be getting credit for activity!

Best regards, Vicki

Vicki,

WOW, I'm surprised.

The Central Texas Section has had a Consultant's Network affinity group active in our Section for as long as I've been around the Section (now coming on 8 years). The ACIN has been a mainstay for our Section.

I reviewed last years rebate info. It also did not include the Consultant's Network as a "valid" affinity group.

If needed, I will certainly get the petition completed.

I am somewhat embarrassed to have this brought to our attention at this time.

I request that you check around a bit and see if there may be some historic records we could use as a justification for having them as an affinity group.

Again, if needed, I'll be embarrassed and have the petition completed.

Chair, Central Texas Section.
