OVER 350 ATTEND RECOGNITION DINNER

This year's IEEE Recognition Dinner held on Saturday, April 29 in the Penthouse Ballroom of the Ramada O'Hare Inn was a complete sellout! Over 350 were entertained by the outstanding Mariah's Singing Group. After a full 1½ hours of entertainment, dancing to the Lindy Kao orchestra followed until the wee hours.

In addition to the Fellow Award presented to Wallace Behnke, Executive Vice President, Commonwealth Edison Company, the Student and Science Award Awards were also presented at the Dinner.

A special Chicago Achievement Award was presented to Hank Korman for his outstanding and special talents as Chairman of the Recognition Dinner Committee for the past three years. Hank's retiring as Chairman. This was an unexpected award and he was completely surprised.

"Thanks" to all contributors and to those who attended — see you next year!

IEEE BOARD IMPLEMENTS ETHICS/MEMBER CONDUCT PROCEDURES

The Board of Directors of the Institute of Electrical and Electronics Engineers, Inc. (IEEE), the world's largest engineering society adopted policies and procedures at a recent meeting to censure members for violations of the IEEE code of ethics, constitution and bylaws and to protect members who may have jeopardized their employment by adhering to same.

The Board action amends Bylaw 112 establishing policy for discipline and support, as well as procedures for use by a new Member Conduct Committee of the Institute. This is the culmination of a number of years of effort by the IEEE U.S. Activities Board.

Under these procedures, an IEEE member can be expelled, suspended or censured for cause. This may be conduct which is a "violation" of the constitution, bylaws or code of ethics of IEEE "or other materially unprofessional conduct." On the other hand, if adherence to the IEEE code of ethics injures a member's economic status, a complaint can be submitted to the Member Conduct Committee. This Committee, after screening the complaint will report to the Institute's Executive Committee which can "offer support to the member as appropriate to the circumstances." The role of the Member Conduct Committee has been defined carefully by the Institute's Board of Directors.

Complaints against an IEEE member must be in the form of notarized affidavits containing specific information. The Member Conduct Committee has to prepare a preliminary report within 90 days. If, after investigation a majority of the Committee finds the complaint non-frivolous and well founded, it will proceed and the IEEE member to be charged with a complaint must be notified at least 60 days in advance of any hearing on the matter.

A mechanism is established for selection of a Hearing Board to be chosen from a list of IEEE members picked by the Board of Directors in advance of any complaint. The Hearing Board will come up with a recommendation which is acted upon by the Board of Directors. A recommendation of expulsion or suspension requires the affirmative vote of two-thirds of the Hearing Board's members. A "censure" finding requires the affirmative vote of its majority.

IEEE BOARD IMPLEMENTS ETHICS/MEMBER CONDUCT PROCEDURES (cont.)

As adopted by the Board of Directors, the procedures provide that no action against a member may be taken without review and approval of the entire Board. The Board may accept the recommendation of the Hearing Board or may lessen the severity of the action; it cannot increase the penalty.

The Board of Directors indicated that "in those circumstances where the Member Conduct Committee will be required, during the course of its investigation, to contact an employer or other non-members of IEEE, the Committee shall obtain a letter from the IEEE member waiving and releasing any claims which the member may have against IEEE arising out of its investigation and subsequent action, if any. In the event it is necessary to contact an employer the Chairman of the Member Conduct Committee will transmit a letter to such employer disclaiming any intent or purpose to function as a union, labor organization or a collective bargaining representative." In all cases, the hearings will be held in executive session. Only after final Board action may results be published and then only as directed by the Board.
