'EASIER TO TRAIN.'

Many employers will tell you that's why they hire DeVry graduates in Electronics. Our Bachelor's Degree graduates and Technicians become productive quickly because they have...

- Learned how to adapt to change, in programs that integrate computers, communications and control systems.
- Developed strong problem-solving skills with our integrated hardware/software approach.

Find out why so many employers call DeVry first for graduates in Electronics — and in Computer Information Systems. We can also handle interview details for you, at no charge.

CAUTION: DANGEROUS SURGES AHEAD TRANSIENT VOLTAGE SUPPRESSION SEMINAR

Fair warning: at least \$10 billion in boards, systems and networks are damaged and destroyed by the cumulative effects of transient voltage every year.

But most transients can be stopped cold — before they damage equipment or destroy data. We'll show you how to eliminate most transient-caused field failures — using available suppression technologies for cost effective design.

Attend one of GSI Educational Services' full-day Transient Voltage Suppression Seminars and you'll learn how to safeguard your designs from the effects of ESD, inductive switching, lighting and ground surges.

Taught by internationally recognized TVS engineering experts Mel Clark and David Hutchins, the seminar explores the complexities of transient voltage — the risks, principles and solutions.

The Seminar includes comprehensive books and materials with lunch. Register 30 days in advance and pay only \$295 for one, \$265 each for three persons or more. Seminar fees are \$325 at the door. Special rates are available for accredited university staff. Seating is limited — call now!

1990 IEEE CHICAGO SECTION SALARY AND FRINGE BENEFIT SURVEY

Please circle or fill in the blanks on this sheet in the space provided. Your response must be received by July 15, 1990 to be tabulated. Please respond only if you are working in an engineering or engineering management position on a full-time basis, or if this would be your job if not currently unemployed. The survey is anonymous, please fill in all the responses so that we can make a meaningful comparison with the results of the 1986 and 1988 surveys. The results will be published in a fall issue of SCANFAX.

1. **AGE** — Insert your age in years (round off) as of APRIL, 1990. []

2. **TOTAL COMPENSATION** — What was your ANNUALIZED TOTAL compensation from your main employer as of APRIL 1990, 1989, 1988? DO NOT include overtime income and DO NOT include income from secondary employment (such as part-time teaching, part-time consulting, etc.) Enter integer dollars.

1990-[\$, .00] 1989-[\$, .00] 1988-[\$, .00]

3. **ENGINEERING EXPERIENCE** — How many years of experience have you had in electrical/electronic engineering and/or related fields?
[] Years

4. **YEARS WITH PRESENT EMPLOYER** How many years (total) have you been with your present employer as of APRIL, 1990 [] (use your prior employer if you are currently unemployed).

5. **OVERTIME** — How many hours of overtime do you work in a YEAR? []

6. **VACATION** — How many vacation days can you take in 1990? []

7. **DEGREE/LICENSE** — Check up to 3-codes as applicable

- [] 1. Less than Bachelor's Degree [] 2. Bachelor's Degree
[] 3. Master's Degree [] 4. Doctorate
[] 5. Registered Professional Engineer

PLEASE REMOVE THIS SHEET, FOLD WITH THE ADDRESS ON THE REVERSE SIDE
OF THIS SHEET ON THE OUTSIDE, AFFIX A 25 CENT STAMP, AND MAIL.

THE SECTION NEEDS NEW BLOOD NOW! WE HAVE TWO VACANCIES, FOR PROGRAM CHAIRMAN AND FOR MEMBER SERVICES CHAIRMAN. YOU DON'T HAVE TO BE A GENIUS TO HELP, JUST A WILLINGNESS TO SHOW UP AT THE MONTHLY SECTION MEETINGS AND LEND A HAND TO THE IEEE. IEEE IS ONLY AS STRONG AND USEFUL AS ITS MEMBERS MAKE IT. IF YOU HAVE ANY INTEREST, PLEASE CONTACT OUR NEW CHAIRMAN, GEORGE STOUT AT 708-827-8509.

SERVING THE SECTION WILL OPEN A NEW PROFESSIONAL DOOR FOR YOU, AS WELL AS GIVING YOU A CHANCE TO MAKE NEW FRIENDS. PLEASE HELP TO MAKE IEEE A STRONG ORGANIZATION.

HAIL AND FAREWELL!!!!!!

This issue of SCANFAX marks the end of my era as SCANFAX editor. Five years and 50 issues ago, I volunteered to act as editor in an effort to continue to bring the electrical engineering profession in Chicago the best newsletter possible. Now, my national responsibilities for the IEEE EMC society, and other professional activities make it necessary to pass the position on to Jim Carroll. Jim has been working with me on the last several issues of SCANFAX and his transition to editor should take place smoothly over the summer.

I would like to thank all the various executive committee members who have served with me over the past five years. Their dedication to the IEEE has made it possible for us to offer the varied programs which are available to IEEE members in the Chicago section.

A few words to the Section, Subsection and Chapter officials I have dealt with. Please understand that I am by nature crotchety, and receiving incorrect meeting notices at the last minute never helped my disposition. Jim Carroll is starting as your new editor with a good disposition. Please cooperate by getting clear, legible, 1/2 and full page format, meeting notices to Jim by the deadlines shown in each issue of SCANFAX. I still have to work with Jim here at Bell Labs, and two of us with bad dispositions would be too much.

Finally, I would like to thank my wife, Marianne, for the many times she had to wait supper while I took SCANFAX to the printer or got up early to squeeze in a last-minute change before reviewing the proofs at the printer. Also, thanks to my son Steve who did all the work on the salary surveys and ran to the printer when I was out of town, and to Jim Carroll who worked on many issues of SCANFAX before becoming officially involved as editor-elect. I shall truly miss working with SCANFAX, but know it is in good hands.

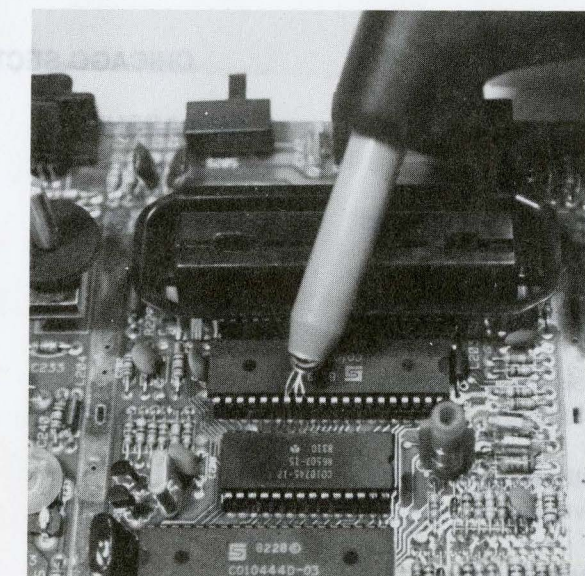

BOB HOFMANN, EDITOR

YOU CAN'T AFFORD TO BE ZAPPED BY ESD!

Electrostatic Discharge can and does...

- Reach potentials of 25,000 volts!
- Wipe out CMOS chips halting electrical operation
- Alter your input data
- Damage critical components
- "Lock-up" your equipment necessitating extended downtime to rectify the situation

Call DLS today at 708/699-9060 to schedule a quick, conclusive test...we can solve your ESD problems.
